					Total			9,700	

Please complete this tentative stocking report and return to our office by March 5, 2021. For each stream, enter a descriptive geographic location where the stocking begins and ends in the labeled columns above. Contact the local WCO to assist in completing the next column, labeled "Stream Section." The local officer should be able to determine a section number (ex: 1,2,3 etc.) that matches with your descriptive information.
